Library Visits

“Just a note to say that Emma’s visit was very useful and was much appreciated by our team. She demonstrated the BASE Library WordPress site, provided an update on the reporting function and also patiently answered our questions! The opportunity to speak to her in person helps a lot.”

“The visit was very useful, hopefully you managed to find it worthwhile as well. The handouts provided on the use of social media and WordPress are good. Hopefully the visits will become an annual fixture as both times you have visited we have found it useful.”
